Subject: RoHS Certification of Compliance

To whom it may concern:

RoHS2 requires that EEE (electrical and electronic equipment) be marked with CE. Atlas Wire's products are raw materials, not EEE's, and are not marked with CE approval. RoHS2 remains concerned with the same elements defined in the original RoHS directive.

Atlas Wire Corporation has reviewed certifications and product chemical breakdown reports from our raw material suppliers to determine that our finished products do not contain the following materials above the stated thresholds.

Material/Substance	Threshold Level
Lead	1000 PPM
Mercury	1000 PPM
Cadmium	100 PPM
Hexavalent Chromium	1000 PPM
Polybrominated Biphenyls, PBBs	1000 PPM
Polybrominated Diphenylethers, PBDEs	1000 PPM

Atlas Wire Corporation's products are compliant with the RoHS2 directive based on the information provided by our raw material suppliers.

If you have any questions, please feel free to contact me.

Sincerely,

Bruce Leska  
Vice President
